UNITED STATES - WEST COAST
Washington State Outer Coast Seafloor Atlas: Map Page: 2G
 Transverse Mercator Projection - Scale 1:200,000
 World Geodetic System 1984 - Soundings in meters at MLLW

The WA State Outer Coast Seafloor Atlas overlays fine-scale seafloor data from Olympic Coast National Marine Sanctuary (2000-2013) on coarser-scale Surficial Geologic Habitat data from multiple sources compiled by Oregon State University Active Tectonics and Seafloor Mapping Lab (2003-2015). Habitat characterization is NOAA's Coastal and Marine Ecological Classification Standard (CMECS, 2012). Inconsistent habitat characterization is the result of overlapping scales between the two products.
